Kristof Welslau

Full-stack JS Developer

👤 Profile

Inspired and ambitious initiator with a '**can do** attitude' and with proven experience in business development and project management. Recently re-trained in **web development (JS)** and eager to gain experience, learn and make progress as a full-stack developer.

💼 Employment History

Self-employed

April 2018 — May 2020

- I worked as an independent trade agent in recycling.
- I owned a web-shop and learned about **digital marketing:** CPC advertising, e-mail marketing, SEO, SEM etc.

Project Consultant at ESF, Brussels

August 2010 — November 2018

- I Coordinated online and offline campaign activities on different topics related to CSR. In partnership with an external development team, we re-designed 3 Drupal websites following agile and UX/UI design processes, based on extensive market research.
- Active in policy/legal advice and implementation. I managed a team and 1M+ yearly support programme for entrepreneurs.
- Project management & event planning**.**

Junior programme officer at ILO/UNEP green jobs initiative, Geneva

January 2008 — December 2009

- First work-experience abroad, involved in dissemination activities, research, web- development (e-learning platform).
- I assisted in a training programme offered to our clients.

All round employee at Dockx, Belgium

September 2004 — November 2008

During my studies, I've been working almost full time; mainly in a bakery and as a bartender, in a community project, as a sports coach and snowboard instructor. Early work experiences gave me discipline, social and customer-oriented skills.

🎓 Education

Hobbies

I like sports, from basketball over surfing to triathlon: I'm hungry for team spirit!

I also enjoy the good life, laughing, being social, having good food and a drink at times.

I love traveling; I'm curious about the world and different cultures. Don't worry, I take work very serious!
